

ROPS-MOUNT TOOL BAR SYSTEM

Chainsaw Mount, Cooler Holder, Fuel Can Holder
Mounted on the Artillian Elite ROPS-Mount Tool Bar, 42"
(Tools Not Included)

MOUNTS TO SQUARE OR RECTANGULAR ROPS STRUCTURES.

The tool bar is the key component in the Artillian ROPS-mount tool system.

The mounting brackets allow the bar to stay parallel to the ground no matter what angle a given rops structure has in either direction, providing true universality.

Cam Lever Latches

Simple and versatile – mix & match any combination of attachments. Cam lever latches built directly into each Artillian component allow you to mount, move or remove attachments in seconds!
